Hi Myles;

From our conversation yesterday it seems that people in our respective camps (congressman, commissioners) believe it best to at least let the fence contractor used by E Faust know that they were working on a US EPA clean up site, and there is a chance they may have been exposed to buried contaminated materials. I visited the site yesterday to see if the fence co posted an advertisement placard on the fence with their name. They did not. I'm willing to follow up with the fence people, but given our current court action with E Faust, I was wondering if you could secure the name of the contractor ??

Thank you for your consideration.

Don B.
